Generally its ginning of the present fiscal year to assume the falsehoods are passed by as the empty ravings of an empty head, but they some

imes become so libelous as to require notice. Its last issue contained this paragraph : "The courthouse ring and a few others who have been taken into confidence for the sake of policy, are gobbling up the property of poor people under the monstrous
eviction outrage commonly called the backtax law. One poor man's house and lot was

In every county there is a ring of capitalists and politicians who are robbing the poor people of all their possessions, and because these mis-

erable hypocrites are democrats of wealth and able to purchase influence, the leaders of the party and the newspapers stand back of the party and the newspapers stand back and see the poor man driven from under his own roof and his property taken for bock-taxes by the voraclous cormorants who hang about the courthouses like coyotes around a dying buffalo, waiting like them to sap the life blood of their victim before the carcass is cold."
